

Arri Signature Zooms Arrive At Scheimpflug NYC

Scheimpflug will have all four of the new Arri [Signature Zooms](#) very soon. As of this writing we've received the 45-135mm T2.8, but the others are on the way!

These lenses were designed to look like the Signature Primes which we also have in inventory. They are optically perfect, but they provide a very easy solution for creating custom looks with the easily added rear filtration that is a magnetized ring that snaps right onto the back of the lens. There are diopters which change the shape of the bokeh, or you can put on custom nets.

- The zooms have a wide range starting at 16mm and going all the way to 510mm
- All of the lenses have a constant T2.8 with no ramping - this includes the 300mm which is a true 2.8 / which for a zoom is incredible - and the bokeh of the 300 is pretty amazing as well.
- Each lens has a magnetic rear filter holder - for adding nets / diopters / creative looks
- LDS2 Metadata - even with the 1.7x extender (which works only on the 65-300 or the 280mm)

Lens	Mount	CF (to lens front)	CF MMOD To sensor	OD	Weight	Format

16-32mm T2.8	LPL	7.64"	1'6"	156mm	8 lb 6 oz	FF+
24-75mm T2.8	LPL	16.22"	2'6"	114mm	9 lb 1 oz	FF+
45-135mm T2.8	LPL	25.83"	3'4"	114mm	8 lb 4 oz	FF+
65-300mm T2.8	LPL	52.52"	6'	156mm	17 lb 13.7 oz	FF+
110-510mm T4.9 (65-300mm With the 1.7x extender)	LPL	52.52"	6'1.56"	156mm	19 lb 2.9 oz	FF+
